BUDI SETIAWAN
FRONTEND DEVELOPER

Mataram, West Nusa Tenggara | +62 819-463-58-409

LinkedIn: [setiawanboedy](#) | budisetiawan.dev@gmail.com | GitHub: [setiawanboedy](#)

OBJECTIVE

Enthusiastic and driven **software developer** with **2-3 years of experience** in **Mobile and Web Development**, specializing in **Kotlin**, **Dart**, **JavaScript**, and **TypeScript**. Successfully launched and maintained **3 mobile applications and 2 web applications**. Proficient in developing user-centric and scalable applications with a focus on **performance**, and **responsive design**.

EXPERIENCE

Frontend Developer

Squadrons AI   *Jan 2024 – Present*

- Developed new features for **Label Studio** to enhance data annotation process.
- Implemented features to streamline annotator organization for efficient labeling.
- Collaborated with the backend team using **Django** to implement efficient APIs and data management solutions.
- Built a responsive and user-friendly interface using **React.js**, with **MobX** for state management.

Full Stack Developer

Masjid Jalan Cahaya   *Jan 2024 – Nov 2024*

- Developed a management system that improved user engagement and performance.
- Developed a robust **Mobile app** that can help to track **Kencelengan Donation's** location.
- Collaborated with team members and clients to gather and understand requirements
- Implemented secure code using obfuscation and secure server connection using ssl spinning
- Managed code quality and reliability through Git repository, including bug fixing

Full Stack Developer (Freelance)

PT Nawab Indonesia   *Feb 2023 – Mei 2024*

- Developed a robust end-to-end app with full functionality, building backend with Laravel, admin with Vue.js, and **mobile with Flutter**, ensuring seamless integration.
- Collaborated with team members and clients to gather and understand

requirements.
- Implemented secure code using obfuscation and secure server connection using ssl spinning.
- Managed code quality and reliability through Git repository, including bug fixing.

Mentor Android Developer

Bangkit Academy   *Aug 2022 – Feb 2023*

- Guided students in Android development, covering core concepts and best practices, ensuring a comprehensive understanding of the subject
- Provided personalized support to help students overcome challenges and excel in their projects, resulting in a 95% improvement in project completion rates.
- Actively participated in student evaluations and assessments, contributing to a 90% increase in student satisfaction.
- Ensure student solved their problem with advice we have given with best result.

Facilitator Android Developer

Merdeka Belajar x Dicoding Indonesia   *Mar 2022 – Aug 2022*

- Facilitated student learning from beginner to expert levels in Android development, , ensuring students commit and finish the program with the best results
- Mentored weekly sessions, ensuring student progress and program completion, resulting in a 93% improvement in project completion rates.
- Successfully guided students in developing Android applications with recent architecture, contributing to a 90% increase in student satisfaction.

Co-Founder & Android Developer

Kaki Keenam Startup   *Oct 2021 – Feb 2023*

- Developed and maintained Android applications, focusing on user experience and functionality, ensuring smooth operation and high customer satisfaction.
- Developed and maintained Android applications, focusing on user experience and functionality.
- Deployed applications to Google Play Store, achieving 10 downloads and maintaining a 90% user rating.
- Collaborated with team members to ensure seamless integration and high-quality code, enhancing overall system performance and reliability.

EDUCATION

Bangkit Academy 2021 x Google

Kaki Keenam App   *Jan 2021 – Aug 2021*

- Android Developer Awardee, graduated with distinction.
- Best 15 Teams Capstone project funded by Google and Kemendikbud

Universitas Mataram

Heart Uno App   *Aug 2023*

- B.Sc. in Computational Physics

- Thesis: "Development of Heart Rate Analysis Application Using Flutter and Arduino."

SKILLS

- Android Native Development: Advanced
- Android Flutter Development: Advanced
- Web Development: Intermediate
- CI/CD: Beginner
- Version Control: Intermediate

Portofolio

Laundriva Customer

Laundriva App is an innovative application tailored for the laundry industry, designed to enhance customer convenience by enabling seamless tracking of laundry services. The app allows customers to monitor the progress of their laundry in real time. With features such as order status updates, pickup and delivery. This user-friendly platform bridges the gap between customers and laundry service providers, offering a modern solution that prioritizes efficiency and customer satisfaction.
